

Mt. Wheeler Power, Inc.

Is now accepting applications for the full-time position of a

Substation Technician

in Ely, NV

Mt. Wheeler Power is seeking a highly self-motivated, organized individual with the ability to communicate with others, plan, use analytical thinking, and problem solve with keen attention to detail. The successful candidate must be able to develop and communicate switching orders. The ability to effectively prioritize and execute tasks in a high-pressure environment is crucial. Pesticide Applicator Certification and Training may be obtained and maintained.

Responsibilities:

The Substation Technician is responsible for the day-to-day operations of Mt. Wheeler Power substation equipment, powerline reclosers, and powerline regulators. For a full list of responsibilities see Human Resources for a full job description.

Qualifications:

High School Graduate or equivalent **and at least one of the following:**

2 years of journeyman line experience

2 years of substation technician experience

Completion of a Department of Labor registered substation maintenance apprenticeship

or

Equivalent education in related field

Must hold a valid driver's license and the ability to acquire and maintain a commercial driver's license (CDL) class A driver's license. Must possess a mobile device for communication.

This position includes a competitive wage and benefits package. Applications and additional information can be obtained from and returned to:

Mt. Wheeler Power, Inc.
